Backlog

- ▶ list of issues describing what your team is going to do on a project. It's a convenient place for creating, storing, and managing several kinds of **issues**:
 - issues that you're currently working on (you can also see them on the [board](#) and in the current [sprint](#) if you're using a Scrum project)
 - issues which you plan to work on in the near future (for example, in the next sprint)
 - issues of low priority which you don't want to forget and want to work on in the future (for example, in a month or two)

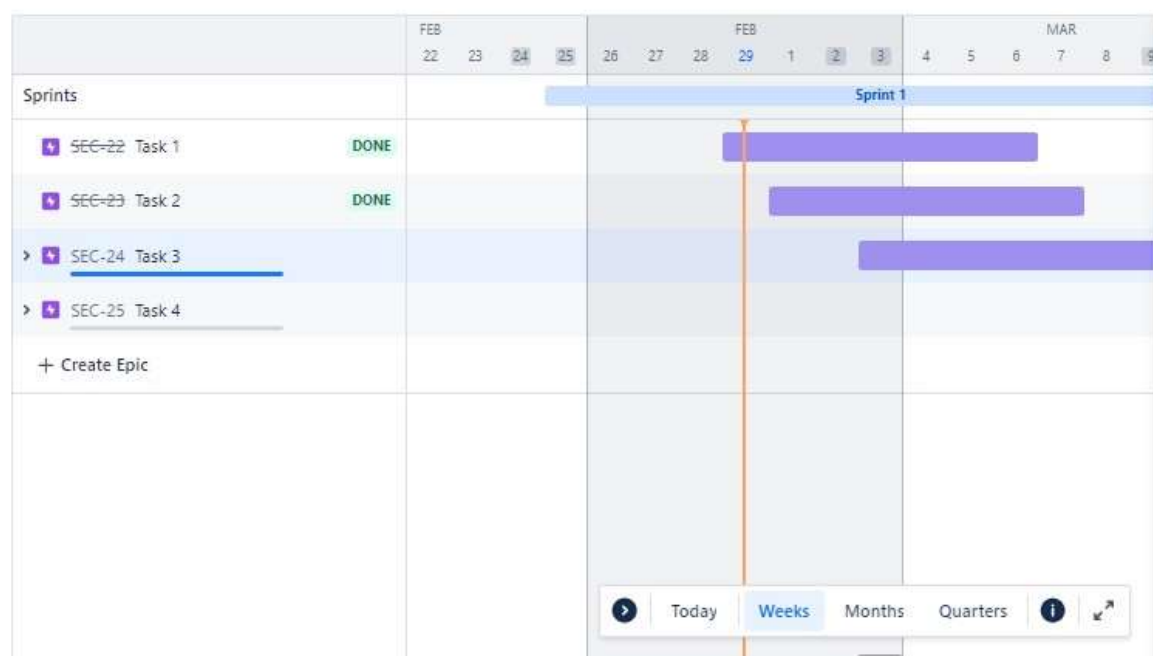

The **Timeline Plan** shows the **schedule** of the project tasks over time

The screenshot shows the Jira Software interface for a project named "Section". The browser address bar displays the URL: `noorha.atlassian.net/jira/software/projects/SEC/boards/1/backlog`. The left sidebar contains navigation options under "Section Software project", including "PLANNING" (Timeline, Backlog, Board, Issues, Add view) and "DEVELOPMENT" (Code, Project pages, Add shortcut, Project settings). The main content area is titled "Backlog" and shows a filter set to "Epic" (indicated by a red arrow). Below the filter, there are two sections: "Sprint 1 25 Feb – 10 Mar (0 issues)" and "Backlog (0 issues)". Both sections are currently empty, with messages "There are no issues in this sprint." and "Your backlog is empty." respectively. Each section has a "+ Create issue" button. At the top right of the main area, there are buttons for "Import work", "Insights", and "View settings". A Windows watermark "Activate Windows Go to Settings to activate Windows" is visible in the bottom right corner.

When we choose **Epic**, Jira will **filter and organize the issues based on Epic**

Quickstart

The screenshot shows the Jira Software interface. The browser address bar displays the URL: `noorha.atlassian.net/jira/software/projects/SEC/boards/1/backlog?issueParent=10023`. The top navigation bar includes the Jira Software logo, a 'Your work' dropdown, and links for Projects, Filters, Dashboards, Teams, Plans, and Apps. A blue 'Create' button is highlighted with a red arrow. The left sidebar contains a 'Section Software project' header and two main sections: 'PLANNING' with links to Timeline, Backlog (selected), Board, and Issues; and 'DEVELOPMENT' with a link to Code. Below these are links for Project pages, Add shortcut, and Project settings. The main content area is titled 'Projects / Section Backlog'. It features a search bar, user avatars, and an 'Epic' filter. A 'Clear filters' button is also present. The backlog is divided into two sections: 'Sprint 1 25 Feb – 10 Mar (0 Issues)' and 'Backlog (0 Issues)'. The 'Sprint 1' section shows 'There are no issues in this sprint.' and a '+ Create issue' button. The 'Backlog' section shows 'Your backlog is empty.' and a '+ Create issue' button, which is highlighted with a red arrow. At the bottom right, there is an 'Activate Windows' watermark and a 'Quickstart' button.

When we click on **create issue**, we can create our **tasks(issue)** in **jira**

Types of issue

Issue Type

Epic

Description

A large feature or big task that contains multiple smaller issues.

Story

A feature or requirement from the user's perspective.

Task

A normal piece of work that needs to be completed.

Bug

A problem or error in the system that needs to be fixed.

Sub-task

A smaller task that is part of a larger issue.

Timeline Plan Example

The screenshot displays the Jira Software interface for a project named "Section". The main view is the "Backlog", which shows a sprint "Sprint 1: 25 Feb - 10 Mar (0 issues)" and a backlog of two issues: "SEC-26 Banners" (REQ 3, IN PROGRESS) and "SEC-27 Categories" (REQ 4, TO DO). A red arrow points to the subtask icon (three people) in the "Banners" issue's header. The right sidebar shows the "Banners" issue details, including the "In Progress" status, "Actions" menu, and "Details" section with fields for Assignee (Unassigned), Labels (None), and Parent (SEC-24 Req 3). The bottom of the sidebar features a "Quickstart" button and an "Activate Windows" watermark.

When we click on **this**, we can add **subtasks** to the **issue** and add details like its parent

- When we click **Create Sprint**, Jira will **create a new sprint section** where tasks can be added and worked on.
- **Sprint** is a **short development period** in Agile (usually 1–2 weeks) where the team works on a specific set of tasks

The screenshot shows the Jira Software interface for a project named "Section". The browser address bar displays the URL: `noorha.atlassian.net/jira/software/projects/SEC/boards/1/backlog`. The left sidebar contains navigation options: "Section Software project", "PLANNING" (Timeline, Backlog, Board, Issues, Add view), "DEVELOPMENT" (Code), "Project pages", "Add shortcut", and "Project settings". The main content area is titled "Backlog" and shows three sprints:

- Sprint 1** (25 Feb – 10 Mar, 0 issues): A message states "There are no issues in this sprint." with a "+ Create issue" button.
- First Sprint** (10 Mar – 31 Mar, 1 issue): This sprint is selected. It contains one issue, "SEC-26 Banners" (REQ 3), which is in the "IN PROGRESS" state. A red arrow points to the "Start sprint" button. Below the issue list is a "+ Create issue" button.
- Backlog** (1 issue): Contains one issue, "SEC-27 Categories" (REQ 4), which is in the "TO DO" state. Below the issue list is a "+ Create issue" button.

At the bottom right, there is a Windows notification: "Activate Windows Go to Settings to activate Windows Quickstart".

We choose **Start Sprint** to begin working on the tasks that are assigned to that sprint.

Jira

Jira Board

- ✓ Agile board is a tool that helps teams plan, visualize, and manage that work. In Jira Software, the board displays a selection of issues in columns, with each column representing a step in your team's workflow for taking work through completion.
- ✓ A board accompanies each Jira Software project by default and provides the team with a shared view of all work that hasn't started, work that is in progress, and work that is completed.
